DTG RELEASE: 131123Z NOV 2003

PREPARED FOR: MJ-3 by MJ-5

## SUMMARY:

Media containment required for current Operation BLUE FLY deployment, western Maine. Priority 1A.

## BEGIN TEXT:

Request media containment procedure for Operation BLUE FLY mission within MJ-5 Project MOON DUST. Priority 1A (immediate).

BLUE FLY status has been raised to Condition YELLOW. Significant activity in the Oxford County area of Maine, coupled with meteorological disturbances over Canada, suggest a relatively high probability (>10%) that BLUE FLY will go operational. The ground contingent is currently deploying in Oxford County. The air contingent, if required, will stage out of Westover AFB.

BLUE FLY mission tasks are being performed by USAF BLUE TEAM personnel. Operational security is provided by NRO SECTION DELTA. Attached to BLUE FLY are personnel (approx. 200) from ARRS out of MacDill AFB. ARRS are not directly involved in BLUE FLY and may be used for cover.

BLUE TEAM will operate under Condition YELLOW in the vicinity of Whitecap and Glass Face Mountains. NRO DELTA will deploy as necessary.

It is not expected that BLUE FLY will operate for longer than six (6) days from this date.
